TIU Contributes to Erbil 2050 Sustainable Urban Master Plan

On June 15, 2023, Tishk International University's Faculty of Engineering played a vital role in the 2nd SEA Public Consultation Workshop, contributing to Erbil's 2050 Master Plan. Emphasizing Sustainable Development Goal 11 (Sustainable Cities and Communities), the workshop addressed environmental, social, and economic sustainability. TIU representatives engaged in discussions on eco-friendly urban planning, resilient infrastructure, and smart city solutions. Collaborations with the JICA Group and Erbil's Urban Planning Board further strengthened academia-government partnerships. TIU's involvement highlights its commitment to fostering inclusive, green, and climate-resilient urban development, ensuring a sustainable future for Erbil's growing population.

Conference Highlights Urban Sustainability and SDG 11

From December 13-15, 2023, Sofia University's Faculty of Economics and Business Administration hosted its 25th annual conference on "Sustainability, Social Economy, and Digital Transformation," emphasizing Sustainable Development Goal 11 (Sustainable Cities and Communities). Dr. Mohammad Salih Mustafa from Tishk International University presented on urban challenges in the Middle East, stressing the need for resilient infrastructure, sustainable housing, and inclusive urban planning. The event gathered global experts, fostering dialogue on education's role in shaping sustainable cities.
