13 CLIMATE
ACTION

The Finance and Banking Department hosted an International Workshop

on “Environmental, Social, and Governance (ESG) Integration in Global Finance: Strategies and Challenges” on December 12th, 2023. This workshop, aligning with SDG 13 (Climate Action), focused on incorporating ESG factors into financial strategies to promote sustainability. By discussing global financial frameworks that integrate environmental concerns, it emphasized how finance can drive climate-resilient investments and sustainable development. The workshop addressed challenges in balancing economic growth with environmental responsibility, underscoring the vital role of the finance sector in mitigating climate change through responsible investment and decision-making, contributing to long-term environmental sustainability.
