### Reports: 2024-2025

2 ZERO HUNGER

## Faculty of Dentistry Carries Out Food Fundraising for Nanakali Hospital

The annual Food Fundraising project, organized by the Deanery of Students at Tishk International University (TIU), was dedicated this year to supporting patients in need of treatment at Nanakali Hospital. The project's main aim was to raise awareness and provide financial assistance

The fundraising event took place on April 29th, 2025. The Faculty of Dentistry participated with four tables laden with food, sweets, and pastries, which were either brought or handmade by students and supervised by members of the Dean of Students' committee. The project saw a great contribution from first-grade students as part of their Interpersonal Dynamics and Character Building course (IDCB), supervised by their lecturer, Miss Zainab Hasan

The first-grade students worked hard and successfully raised a total of nearly 1,155,000 IQD. On May 11th, 2025, ten students, accompanied by their supervisor Miss Zainab Hassan, personally delivered the donations to Nanakali Hospital

The project's objective was to provide financial aid and show empathy toward the patients' situation, fostering a sense of service and sympathy for humanity among the students. It highlighted the importance of giving and putting others before oneself

In conclusion, the successful implementation of this project was a testament to the powerful spirits and hard work of the entire team. The university expressed sincere gratitude to all the students and staff who participated in this important humanitarian project and looks forward to continuing such work in the future

# Interior Design Food Fundraising for Social Community Project

On April 21, 2025, the students of the Interior Design Department at Tishk International University actively participated in a special fundraising event titled “Buy a Snack, Build a Library.” The initiative was launched to raise funds for the renovation of a local school library that is in poor condition, with limited resources and outdated materials.

The event featured a vibrant food sale organized and managed by the interior design students themselves. They prepared and sold a variety of snacks, sweets, and beverages, turning their creativity and organizational skills toward a meaningful social cause. With enthusiastic participation from students, faculty, and university staff, the event successfully raised both funds and awareness for the urgent need to improve educational infrastructure in the community.

This initiative was more than just a fundraiser—it was a demonstration of civic engagement, teamwork, and social responsibility. The students used their platform to advocate for better learning conditions for young children, proving that even small acts, like buying a snack, can contribute to building something much larger—a future full of opportunity and access to education.

The Interior Design Department is proud of its students for taking the lead in such a purposeful and compassionate project and looks forward to supporting more student-led initiatives that make a difference in the lives of others.
